

Mushrush Red Angus Commercial Heifer Supplement Sheet- 2024

16 - Commercial Red Angus Fall Calving Cows

Recipient cows from our home ranch, these cows are pregnant with a natural service calf instead of a Registered embryo. As good as he is, Dr. Joel Anderson can't stick them all. Sires are the same Mushrush Red Angus herd sires we use on our registered cows: H556 – Reg# 4413465 and 0461H – Reg# 4419733. They were vaccinated with Virashield 6 VI5-HB at preg check.

*Cow opening winning bid can choose what lot(s) they would like to buy – However lots will not be broken.

10 - Commercial Red Angus Open Yearling Replacement Heifers

These fancy commercial heifers are ready to breed this spring. They are bangs vaccinated, tested BVD-PI negative and are current on all vaccinations. In addition, they have undergone a Reproductive Tract Score by Dr. Joel Anderson, Cross Country Genetics, to ensure they are cycling and have no tract abnormalities. From our ET recipient herd, Rolling Prairie Ranch, Hatfield, MO, they were born and raised on fescue.

*These will be sold as a 10 head lot and will not be broken
