

Mushrush Ranches 2025 Production Sale

43 Commercial Fall Bred Heifers

These heifers were AI bred on November 29-30 to calving ease Mushrush sires and then run right with our registered heifers, exposed natural service for 55 days to K065 (Reg#4643361), K607 (Reg#4751583), K517 (Reg#4751535), and H559 (Reg#4751685). All heifers are bang vaccinated, BVD-PI negative and current on all vaccinations.

Heifers were ultrasound pregnancy checked by Rocking KM Veterinary Service on March 6, 2025. While we believe their assessment for expected calving date to be accurate, we cannot guarantee it.

*Winning bidder has choice of tag color group and may take any number of the groups. Bidding will reopen until all groups are sold.
